And I just saw the second part of your question. We sent them just enough extract for their testing so I am assuming it was consumed in analysis but that would be a question for them. We have not received anything back from them.

All other items have been returned to your agency with the exception of items still in progress or those consumed during analysis.

I'm in interviews and need to be back at my desk to look up the case. I may not be able to get back to you until tomorrow morning.

Good morning,

The Prosecutors are asking me for information about the DNA swab from the knife sheath that went to Texas with Dustin Blaker. Before I answer them, I want to make sure I have the right item. The ISP Lab# for the sheath is Item# 1. I see the following Lab products that are candidates; are any of these the item in question?

- Lab Item #3 "Extracts from Items 1 & 2"
- Lab Item #1.1 "Extracts from strap"
- Lab Item #2 "Extracts from Items 1.1, 1.2, 1.3 & 1.4"

They want to know if that swab ever came back to our agency, or if it is still with you.

Thanks
