It's Jennie. Do you have the suspect's residence locked down? Are you getting a search warrant for it?

Nov 16, 2022 at 7:13 PM

We are past Grangeville. Just passed Cottonwood.

Ok

FYI it's apparently a violation of CJIS policy to have those photos on the global drive. It was recommended that you move them immediately.

Well, can't do anything about it tonight

We are at the A&W. Please let me know when you're done with briefing. Thanks!

Sorry to leave without taking to you again. Let me know if anything comes up. Otherwise we'll see you about 745 am.

Sounds good

Enjoy the eats, you all get some rest. Good job today

Thank you. I hope you get some rest tonight.

They scheduled a web meeting , i might be delayed

Ok

Did you guys photo each window to show the position of the lock when you arrived?

Latent print processing report is approved & released.

Nice...any print appearing?

No prints on the sheath. Sorry not better news 😞

It is what it is

👉 that biology has better results with the evidence they're processing

Hopefully

Thank you again for all your teams help and hard work. Especially Tara and Kerry for the added stuff today

You bet! Happy to help wherever you need us 😊

Good morning! Thought I just had- we will need to get fingerprints from the two surviving roommates. If you could get those, they could be sent in the next batch of evidence. I think Tara is planning to start on the latents this morning.

Copy that

The staining and destining needs

The staining and destining needs drywall replacement correct?

Yes it's ruined. And hazardous.

That's what I keep telling them

Because it's a stain, I don't think you can effectively clean it off a surface. And using chemicals to try to clean it could potentially cause other problems. Best to just replace.

Can you call when you get a minute? I know you're busy.

Dec 29, 2022 at 4:02 PM

We just got to the D2 office

Dec 31, 2022 at 9:29 AM

We will be there shortly. I'm waiting for a file transfer to finish for LizQ images.
