Narrative (additional information / additional passengers - indicate unit no. and all information for additional passengers)

J. Sterling K41

I responded to the area of Ramsey Rd and Columbus to assist Sgt Avriett on a crash he had happened upon. Upon arrival, Sgt Avriett advised me the crash was non-injury and he had already started a tow for unit 2. At this time I took over the crash investigation. All parties were able to provide their requested information.

I contacted the driver of unit 2. I identified her using her Idaho DL as K.Unwarra G.Unwarra. K.Unw told me the following: She was traveling north on Ramsey Rd in the right hand lane of travel. The traffic was backed up due to the turning traffic into LCHS lot. She was going to enter the north student lot so she was passing the stopped traffic. As she was passing the vehicles she noticed a red car, unit 1 merge from the line of traffic into her lane. She used her horn and attempted to stop, but was unable to do so prior to colliding with unit 1. She stated she had contacted the driver of unit 1 and asked why he didn't hear her horn. She was told he was "banging" to his music.

I then contacted the driver of unit 1. I identified him using his Idaho DL, as M.Unwar M.Un. M.Unw told me the following: He was in the line of traffic to turn into the LCHS lot. He was currently sitting in the left hand lane of travel on Ramsey Rd. He was going to merge into the right hand lane so that he could pass the stopped traffic and enter the north lot. As he started to merge he did not see unit 2 who was in the right hand lane and they collided. I asked why he did not hear her horn and he stated he was listening to his music loudly and did not hear anything.

Based on the above statements, I issued M.Un Eticket C852155 for unsafe lane change 49-637. I explained the citation to M.Un and he did not have any questions for me. I also provided him a pamphlet for Alive at 25.

I took digital photos which will be uploaded into Viper along with my body camera footage. The above report is a brief synopsis of my contact. For further details see the digital evidence in Viper.
